Welcome to JQuery Conf 2015

JQuery Conf 2015, Bangalore is the first time the conference will be organized in Asia. JQuery Conf is not just about jQuery anymore. jQuery Conference is about bringing together experts from across the field of front-end development to bring you up to speed on the latest open-web technologies. Get the latest on jQuery and related projects, code architecture and organization, design and implementation practices, tooling and workflow improvements, and emerging browser technologies.

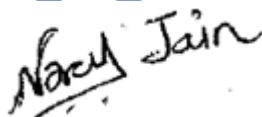

We are planning a grand event, with **more than 50 Sessions over 3 days**. We plan to bring together thought leaders from all over the globe to India.

The Indian software development community has the largest JQuery developers in the world and is a hotbed for front-end development. Number of organizations embracing javascript to provide a richer web experience to their users has grown exponentially over the last 6 years. As these organizations are implementing their front-end development strategies, they are faced with many questions and challenges. This conference creates an exceptional opportunity for developers and testers, and those who care about front-end development to come together to have the conversations necessary to push the movement forward.

Join us! We expect to host up to **700 passionate attendees** in Bengaluru, India, on July 23-25, 2015.

Special events are planned to showcase your brand at this grand, international conference. Your presence with us will help us create an exceptional event.

I invite you to participate and tell your story at this international gathering. This is an opportunity to stand out on an international stage.
